PURPOSE: Status the Closure Plan for the Simulated High Level Waste Treatment/Storage Permit Application.

MINUTES:

A Unit Manager's meeting was held to discuss the status of the Closure Plan for the Simulated High Level Waste Treatment/Storage Permit Application. The topics of discussion, as shown by the attached presentation material are attached. Results of the meeting are detailed below:

- Closure Plan. Wayne Slater and Chuck Miller discussed the status of the project and the Closure Plan with meeting attendees. Discussion centered around the following items: waste designations, the recent letter from Ecology that approved disposal part of the waste, the applicability of final closure standards, spill control, equipment decontamination procedures, and the sampling plan.
 - Sampling and Analysis Plan. This item was discussed in some detail, including sample numbers, sample depth, composite vs. grab samples, criteria vs. constituent analysis, and sample location/statistics.

• Review Dates. Closure Plan dates were also discussed. Parties agreed that the first three dates presented by PNL were accurate:

- 10/2/89 Ecology Comments on Closure Plan
- 10/31/89 DOE-PNL Revision of the Closure Plan
- 11/28/90 Second Round Ecology Comments on Closure Plan

• Action Items. Key action assigned during the meeting are summarized as follows:

1. Document, via a letter to Ecology, the number of samples that will be analyzed under via oral rat acute toxicity tests by November 16, 1989. (DOE-RL/PNL)
2. Send results of rat tests of action item 1 to Ecology when available. (DOE-RL/PNL)
3. Send WDOE a copy of the reference Watson, 1983 by November 16, 1989. (DOE-RL/PNL)) *Send a Co*
4. Send Notice-of-Deficiency comments on the Closure Plan to DOE-RL by November 30, 1989. (Ecology)
5. Clarify public comment process by November 16, 1989. ((Ecology))
